Andréi  
Tarkovski

Hi.

To day I´m present a very important person  
to me professionally.

He´s a very importan reference to me on the audiovisual  
compositing area.

He´s from Russia, your name is Andréi Tarkovski, he´s a filmmaker. He´s  
the best Russian film director.

Andréi Tarkovski was he the most great filmmaker director of all time  
from Russia.

In the seventies Andréi Tarkovski was the producer the most impor-  
tants expriemental films. Begin the cult to Tarkovski.

Your film cult who me like is Stalker, a great film to 1979. Is a dark film  
from te deep soul. This film represent the essence from A.T.

Tarkovski died very young, he died at fifty nine year old,  
in Paris, france.

The essence from Tarkovski  
not die.

Peter  
Saville

Good afternoon.  
Now I present to Peter Saville.  
Peter Saville is a visual icon from the eighties  
alternative British Sound.

He was born in Manchester, England and He's a graphic designer.

He was the creator of the most important cover albums of the Manchester and British classics alternative bands of the 80's. His graphic style is minimalist.

Always drew attention to design album covers and when I found who was the designer of album covers of the bands that I was hearing, I was more interested in graphic design.

Peter Saville has participated in many visual projects east 80's until today. He's participates in different projects as visual fashion collaborate and now he's the creative designer to City of Manchester.

Peter Saville is an important visual  
and graphic reference to me.

Pablo  
Picasso

Goodnight.  
Finally I present a classic visual reference for me:  
Pablo Picasso.

Picasso was born in 1881, he's from Malaga, Spain. He was a painter and sculpture.

Picasso was the creator of Cubism.

Why I like Picasso? I like Picasso because his visual style is raw and wrenching and with immense political criticism.

Which of your pictures I like? I would really like Guernica, this is a clear example of criticism and opposition to the Spanish civil war by Picasso.

Where Picasso die? ... Picasso die in 1973 in Mougins, France.

This is Picasso, a key painter in the history of world painting.
